GERMANY FURNISHED REASONS

To Russia for Refusing to Withdraw Troops From Pekin.

ARGUMENTS OFFERED APPEAR IDENTICAL.

The Recent Contradictory News Cabled From Wash-Ington Is Most Unpleasant to the German Government-Li's Credentials.

Germany compromise propositions in answer to the Russo-American proposals appear baseless. The correspondent of the Associated Press today, said: "There are no signs that Russia means to repudiate her groupeition. But it is already clear that the entente of the powers will not be offected thereby. Germany gave Russia a formal answer to her proposition, but I am unable to state whether this answer that Germany, replying to the advice to withdraw her troops from Pskin, has gent Russia detailed reasons why this neems contradictory news cabled here from Russia detailed reasons why this seems contradictory news exhied here from inopportune and calculated to prolong instead of shorten the war. The arguments

SURVEY OF THE BRAZOS RIVER

Has Been Ordered by the Department of War and Money Provided.

(Special to The Post.)

Washington, September 8.-Late yesterday afternoon General Wilson gave his approval to the project to survey the Brazos river and immediately sent the papers to the secretary of war. In the absence of Secretary Root, Representative Burleson called on suting Secretary Methlejohn to urge upon him immediate action. The report of Captain Riche and the papers accompanying it were at once considered by him and he, too, approved the project and the Brazos river will be surveyed from its mouth to the city of Waso.

General Wilson will at once notify Captain Riche and, the full amout asked for the survey having been alletted, Captain Rishs will at once have a authority to proceed in accordance with his recommendations and complete the

Mr. Burleson left for New York to visit his family immediately after the report was approved and the smount asked for had been allotted. This allotment is the largest that has been obtained for any survey under

the last river and harbor bill. Mr. Burleson is certainly entitled to great commendation for his excellent

work in this matter. He is displayed great tast and energy and perseverance in getting this work through in the length of time that de did. The survey will likely be completed now in time for the consideration of the river and harbor committee when it comes to make up its bill at the next session; Mr. Burleson worked for that end with untiring energy in the face of the 90 degrees heat provailing here.
